**Written By:** The PUA Method Team

## **Introduction**

*You never want to be in a situation when you see a girl and don't know how to start a conversation with her.*

This E-Book contains openers that the Instructors in the PUA Method team use in the field for themselves and I'm giving these away to the community.

This is a FREE E-Book and so you can't expect it to be detailed like other products that are sold at PUA Method. The others' have literally taken years of cumulative testing and research along with months of putting the information together into a learnable format.

The Text Game E-Book is something I'm very proud of and to date I have not had one returned copy despite the 110% Money Back-Guarantee. I am a quality control freak and believe in taking time to put out a quality product. Overall my belief is that generally people are fair and are willing to pay for something of value.

Feel free to use all the openers below for yourself, but at sometime in the future swap them out for your own more relevant and congruent openers.

Experiment and have fun with it.

## **Delivery**

The delivery is important. Speak loudly when you open, you can never be too loud and I'm yet to meet a student who I've had to tell to talk quieter.

Being loud sub communicates that you are confident, sure with what you are saying and that you aren't used to being ignored.

When using a humorous opener, you have got to do it from the frame where you are amusing yourself. For example if I was to open with the "OMG you guys remind me of fans of sex in the city" I genuinely find that amusing.

Any joke that you find funny can be used to successfully open a set just try to tell it for your own amusement and not the girls. This is because if you are trying to make the girl laugh it sub communicates that you are lower value than her and that you are *trying* to get her to like you. If you open the set just amusing yourself it sub communicates that you aren't bothered by her reaction or her looks and you are just having fun, which is a lot

higher value.

After a while of using the same opener you might not find it as amusing or fun compared to the first few times that you tried it. You will also start to encounter the girls saying "how many girls have you said that to today?" e.t.c. This is when it is time to try a new opener for a while.

Another way to get around using the same opener over and over again is to go direct. Walk up to the girl and tell her what you are feeling e.g.

*"Hey I really want to go and talk to that girl over there but have no idea how to do it, could you give me some advise"*

//This is probably the easiest way to open a group of girls in night game, girls will light up and give you loads of advise. Make sure you ignore all their rubbish advise, but you do now have a new bunch of female friends for the night. When you go up to your target now all the other girls will be looking over, this will give you pre-selection. You can also invite your target to meet the other girls but just remember to tell them to pretend that you've known them for years.

Alternatively,

*"Hey you look way too sexy to be dancing by yourself 😊".*

//If the girl is DTF (Up for a one night stand) then you can go direct and get results very quickly.

There is a post on

<http://www.puamethod.com/posts/Sexual%20Escalation/Sexual%20Intent.php> about sexual escalation, which can be used in conjunction with this opener.

If the girl is predisposed to find you attractive or she wants to meet you already then going direct is normally better. Use your own judgement on whether to go direct or in-direct, if I don't have enough information to make that call then just go in with something funny like:

*"hey, sorry I'm late I got stuck in traffic 😊"*

Then proceed to talk about something you find fun.

## **Night Game**

- **"Hey you look like you get no attention from guys what so ever, so I thought I'd come and keep you company for a few minutes, hi my name is X?"** (Say this to hot girls and not girls that probably don't get much attention.)
- **"Hey have you heard of the comedian Russell Brand? Do you think he's good-looking because me little sister has pictures and posters of him all over her bedroom walls."**
- **"Hey sorry I'm late, I got stuck in traffic. You know what Sarah is like in the shower, she takes ages, how have you been dearest?"** (This is all done in a joking way, and usually what will happen is the girls will role-play with you, and open up to conversation.)
- **"Hey are you bubbles 69? I think I'm meant to be meeting you for a date from match.com tonight."** (This should be in a joking way and from here you can talk about how you are very demanding on a date and then transition to normal conversation.)
- **"Hey are you the kit kat twins, I ordered you online for our deluxe date tonight, I've paid good money for you guys"** (All said in a cheeky joking way.)
- **"OMG you guys remind me of fans of sex in the city" (whatever reaction) "yeah look at you with your fancy handbags and cocktails. If you were a character off sex in the city who would you be?"**
- **"Hey excuse me, could you take our photograph please?"** (When she returns the camera tease her on doing a terrible job and then transition into another opener)
- **"Hey I'm going to chat you up the best you've ever been chatted up before, its ok I've been practicing online"** (Then proceed to lean in and in the creepiest voice tell her the worst creepiest chat up lines you know, all should be done from the frame of entertaining yourself.)
- **"Hey guys quick question, do you think guys and girls can ever just be friends or do you think there is always something more?"** (whatever reaction and continue to talk about different situations) **"Its really cool that I can actually**

***talk to you and you don't think I'm hitting on you, I'm off the market and I hate it when you can't just get to know someone."***

- ***"hey guys, what's the best opener that we can use to speak to girls?"***
- ***"hey guys quick question, if a guy was to approach you in a nightclub would you rather he was more direct or indirect? My friend X has found these lines online and he was like what do you do you always seem to have hot women around and I didn't know. I usually just say the first thing that comes into my head"***
- ***"Hey do you think I look like a drug dealer?"*** her response ***"It's just that I've had two different girls come up to me tonight all sexual, like hey do you have any weed?"*** And make sexual gesture to her by touching her arm. This will get a laugh and good Kino then proceed to normal conversation.

## **Day Game**

- ***"hey quick question, I'm looking for a non romantic gift for me friend and I don't know what to get her, do you have any ideas?"***

If she says no then you prompt her with two options

***"what do you think about candles is that romantic? I don't want her to get the wrong impression because she's had feelings for me in the past but I want to keep it just as friends."***

- (Heading to Y Location from X Location) ***"Hey sorry do you know which way to X Location?"*** (She then directs you and now you are both walking in the same direction to X Location which gives you time to build some more conversation)
- ***"Hey I saw you from over there and thought you looked like an interesting person and wanted to come over and say hi"***
- ***"Hey quick question, my flatmate is away on business and has given me £100 to buy his girlfriend a birthday present but I have any idea on what to buy, do you have any ideas?"***
- ***"Hey I'm just about to go to X location and I was wondering what flavour ice cream do you think would most compliment my time there?"***
- ***"OMG I love your style" (Then comment on an item of clothing that you like she is wearing) "do you like to shop?"***
- ***"OMG you guys remind me of fans of sex in the city" (whatever reaction) "yeah look at you with your fancy handbags and cocktails. If you were a character off sex in the city who would you be?"***
- ***"Hey quick question I want to buy some new jewellery but I've been looking in the men's section and its all the same stuff that everyone is wearing. Do you think there is some women's jewellery that a man can wear that wont make him look gay?"***

- ***"Hey quick question, I'm looking to buy a present for my niece and I don't know what to get her, its impossible to buy for girls - I hate you 😊 do you have any ideas?"***
- ***"Hey guys, I've been looking at these sweets / drinks / chocolates and I cant decide which one would compliment my time in X the most, what do you think?"***
- ***"hey, I only have like (look at your watch) not even a couple of minutes as I'm on my way to a meeting. It's just that you look like an interesting person, and I don't have time to chat further right now. What's the best way of getting in contact with you?"***
